STEPHEN LOQUET
SOFTWARE DEVELOPER

Name	Stephen Loquet	Github	www.github.com/Sloq
Email	sloquet@gmail.com	LinkedIn	www.linkedin.com/in/stephen-loquet
Phone	(562) 841-6245	Website	www.stephenloquet.com

PROJECTS

BetterBooks
Build an interactive website, in the style of Goodreads, that tracks users favorite books and allows creation of bookshelves to organize users libraries
- Single-page React/Redux app utilizing Ruby on Rails backend
- Implemented user authentication using BCrypt and establish session validation

Fire Chief Squirtle
Sole contributor to browser game inspired by classic console video games
- Constructed using only vanilla JavaScript and HTML Canvas
- Utilized modular, object oriented design for quick rollout of new features

Conneqt
Worked in three person team to develop a mobile application that allows the easy exchange of business and social media information
- Learned React-Native, Express, Node.js, and MongoDB over the course of a single week
